

### FOCUS

Progressive F.O.R.C.E. Concepts, also known as “PFC Training,” is the primary instructional arm of the PFC Group of Companies. The mission is a simple one: To Save Lives. Our guiding principles on this journey are unrelenting self-assessment, an ever-evolving current and comprehensive curriculum, and realistic stress-proven tactical solutions based on simpler alternatives. Since 1997, Progressive F.O.R.C.E. Concepts has been an industry leader in teaching Force Operations for Resolving Combative Encounters (“F.O.R.C.E.”). Over the years, tens of thousands of military and federal operators have received PFC Training at our state-of-the-art Pioneer Annex Range Complex and around the world.

### FSOC-L

Designed for operators deploying on low visibility assignments, FSOC-L is a five-day immersion into advanced covert firearm carry and deployment. Low signature techniques, tactics, and protocols utilizing deep concealment equipment add to FSOC’s shoot-move-communicate and small unit tactics foundational curriculum. This training will focus on handgun, carbine, and medical deployment in various live-fire environments, including low-light, high-angle terrain (range specific), structures, vehicles, and more.
